## Background

We are a [British-Israeli company](#) that has been developing software systems for almost 20 years. Most of our customers are from Israel, the USA and England. Our customers are mainly businesses looking for software solutions, and on the other hand, private individuals or business entities who want to establish a new venture - a startup. We develop desktop software, mobile apps, websites and more.

During 2022 Avitech launched a new venture - CorrBuilder( [Corry](#)). [Corry](#) can scan, sort and index emails correspondence, and extract them into a well-designed and clear document ready to be presented in court. It is really an amazing and useful tool.

During 2022, as the first year of commercial activity, Corry produced over 150K professional documents for law firms in London.

- Corry has the highest security license of Google and Microsoft
- Corry is fully compliant with GDPR

## We are looking for a local partner

We are looking for a serious, motivated and skilled local partner to distribute **Corry** in the local market.

- No need for professional knowledge in the digital industry!
- no need to understand anything about computers.

You are mainly required to invest time and resources using your own experience and your networking skills in your local market - that's it!

## The nature of the partnership

Our main goal is to find a single distributor in each country, and to grant him an exclusive distribution license, signed for many years ahead.

The partnership agreement will be signed supported by lawyers of both sides.

We are not asking you to pay us anything! The distribution license is totally free for you. Our profit will come from a share-revenue model ONLY!

You will have our full support and cooperation in the day-to-day work. We will teach you everything, you don't need any prior knowledge except a passion for business success

## As a distributor

As a local distributor, you will be responsible for all current distribution and marketing activities including: PR, Online-marketing, Offline-Marketing, Branding, Business-Development, Corporations and more.

All payments and transactions will be made automatically using online platforms, same as for invoices systems, which will be sent to the users and to us.

As a distributor, you will have direct, private and secured access to a management dashboard where you will be able to see all orders and payments activities.

You will have the privilege to decide on your own domain name and the prices of the services for the users.

## Financial predictions

5 million court hearings in civil disputes every month, world-wide. All of them are based on emails or chats correspondence. 10 million plaintiffs and defendants every month, and they all, without exception, should and need to use **Corry** - it's a fact!

Statistically( coming from our own experience), the potential of **Corry** is to produce 0.2% of documents from the total number of the population. Which means, for each million citizens, the demand for using **Corry** will be 2K documents per year.

For example: **Italia's** population is 60 M people. If an Italian distributor works hard, the number of documents that could be produced by **Corry** is **120K** per year.

Currently, our goal is to charge \$ 9.99 for each document. Which means, just from the Italian market, the incomes could be \$ 1.2M a year.

## Join to our success

- A unique and safe business venture
- No need initial investment
- Huge commercial potential
- Working hand to hand together
- Following the phenomenal success in London

In a year from now, probably you will be in a totally different financial status.

Join us, let's do great things together!
